Instructions

Using listsite.zip, found in the root of resources as starter-code, write test(s) for the following user story:

""""

As a list author I need to mark an Item as done so that I don't do it again.

AC:

There is a button for each item

pressing a button marks that item as done and reloads the page

""""

Then, implement a feature which implements the acceptance criteria. Ensure that your test passes, then upload your submission.
